How to use advanced search

Searching · https://disclosureready.us.legalready.ai/knowledge/how-to-use-advanced-search/

Below are examples of some search operators to enable a more specific or targeted search:

- Family Law (a space between words = Family **AND** Law)
- Family | Law (| = Family **OR** Law)
- Family -Law (-= Family **NOT** Law)
- "Family Law" (" " = **PHRASE MATCH**)
- "Family Law"~2 (" "~2 = **PHRASE MATCH** with distance, e.g. Family Law, Family and medical Law)
- bank* (* = **PREFIX** e.g. will search for "bank", "banks", "banking", "bankrupt", etc.)
